**Branches**

Available from all nine JUCY/STAR Australia Branches.

**Fitting liability**

It is the customer's responsibility to install the child restraint in the vehicle. Branch staff are not certified to fit them or advise on how they should be fitted.

**Australian legislation**

By law, all children up to seven years of age must be secured in the correct child car restraint according to their size and age. A child may stop using a child restraint once they turn seven years of age or if their seated shoulder height is above the top mark of the restraint or their eye level is above the back of the booster seat. A child under seven years of age cannot sit in the front row of a vehicle that has more than one row of seats.

**Seat compliance**

Overseas child restraints cannot be used in Australia because they do not comply with Australian Standards and do not display an Australian Standards logo.

### Cost

\$40 each per hire

### Booking

Can be requested at the time of reservation or Pick Up and is offered subject to availability.

### Branches

Available from all three JUCY/STAR New Zealand branches.

### Fitting liability

It is the customer's responsibility to install the child restraint in the vehicle, not JUCY's. Branch staff are not certified to fit them or advise on how they should be fitted.

### New Zealand legislation

By law, all children up to seven years of age must be

secured in the correct child car restraint according to their size and age. A child may stop using a child restraint once they turn seven years of age or if their seated shoulder height is above the top mark of the restraint or their eye level is above the back of the booster seat. A child under seven years of age cannot sit in the front row of a vehicle with more than one row of seats.

### Seat compliance

JUCY/Star does not recommend bringing your own car seat with you as our car seats have already been certified for NZ. However, should you need to please follow the compliance: Overseas child restraints can be used in New Zealand if they meet one of the following guidelines: AS/NZ 1734, FMVSS 2/3 or a E rating. See page two of the [link](#).
